

Build a Double width outboard rack

Accommodates 60u of rack devices

Use 18mm thick MDF throughout.
 Finish with clear varnish.
 Requires 4 x 30u 19" rackstrip.
 Add 6 heavy duty 100mm wheel castors for mobility.

— Assemble using 50mm screws.
 Pre-drill and countersink all screw holes to prevent splitting. Use a drill bit dimension a little narrower than your screw. Drill a test hole in an offcut.
